

Liquid Edible Cannabis Products

Summary

This proposal permits liquid edible cannabis products based on standards established by the Commission in its February 2022 resolution.

10.62.37 Edible Cannabis Products

.12 Edible Cannabis Product Requirements.

A. - D. (text unchanged)

E. Liquid Edible Cannabis Products.

(1) A permittee may not manufacture a liquid edible cannabis product, including syrups, oral suspensions, oral solutions, and elixirs, with a water activity of greater than 0.85 unless approved by the Commission.

(2) The Commission may approve a liquid edible cannabis product with a water activity of greater than 0.85 under the following conditions if the licensed processor submits:

(a) A completed application in a form prescribed by the Commission;

(b) A dosage form that:

(i) Is listed in Chapter 1151 of the United States Pharmacopeia; and

(ii) Does not contain, coffee, tea, carbonated water, juice, or soda; and

(c) A product that is:

(i) Single use with a volume of 60 mL or less; or

(ii) Multi-use with a volume of 250 mL or less.

(3) A multi-use liquid edible product may not be approved by the Commission unless the permittee submits product stability and homogeneity studies for a period of 12 months, in accordance with the Commission's current version of technical authority for medical cannabis testing.
