

NOTICE: Passing of Conditional Licensee, Forthcoming Guidance

(July 30, 2025)- The Maryland Cannabis Administration (MCA) is saddened to learn about the recent passing of a conditional licensee. The MCA wishes to offer our deepest condolences to the friends, colleagues, and family as they navigate through this difficult time.

MCA continues to examine the unique issue of ownership interests in conditional licenses and how those interests can transfer upon death. This is a new issue for MCA and we want to ensure that we examine the matter thoroughly before determining the best course of action.

MCA intends to publish guidance on this issue once we have concluded our research and made a determination about how to move forward.
